Evaluating Ergonomics in the Workplace

How to use DELMIA V5 Human effectively and efficiently in any industry

Abstract

EOS Solutions is one of the world's leading providers of software, hardware and professional services the engineering community, with an emphasis on the aerospace, defense, and petro-chemical industries. EOS Solutions enables its customers to improve their competitiveness, productivity and profitability by delivering and maintaining world-class Product Lifecycle Management (PLM) solutions. As a leading software, hardware and service provider, EOS works with a number of Fortune 500 companies in North America to help them realize their visions.

In addition to our 'best-in-class' technology solutions, we offer a portfolio of internally developed software products, IT infrastructure, as well as world-class PLM training, professional consulting and implementation services for Dassault Systèmes and Adobe products.

The EOS Solutions team brings together decades of experience in PLM solution implementation, simulation, engineering and manufacturing. By leveraging the strength of our people and our relationships with our customers, EOS Solutions has developed into the fastest growing Dassault Systèmes Business Partner worldwide and the only Dassault Systèmes focused on manufacturing, across the CATIA, ENOVIA, DELMIA, 3DLive and 3DVIA brands. EOS Solutions is also an Adobe Development Partner, actively working

the Adobe Acrobat 3D product line. In addition, EOS Solutions has a strategic partner with Delfoi Oy to deliver Delfoi's cutting software solutions and technical expertise to North America.
