V6 Demo

**Abstract**

Experience PLM 2.0 live in action:

Attendees to this session will learn of the benefits DELMIA V6 delivers with the next generation PLM 2.0 manufacturing solutions that help create, share, execute, and optimize virtual production systems. Dassault Systèmes V6 PLM 2.0 is a major redefinition of the 3D PLM markets for all users creating, consuming, and remixing Intellectual Property (IP).
