

**Patrick Michel**

**Vice President, DELMIA Industry Solutions and Marketing  
Dassault Systèmes**

**Bio**

Patrick Michel was appointed Vice President, DELMIA Industry Solutions & Marketing in 2005. Patrick joined Dassault Systèmes in 1996 after graduating in Electrical Engineering at the University of Grenoble in France and having completed a Master's of Engineering at the Thayer School of Engineering, Dartmouth College. He started his career in the CATIA V4 Industrialization department quickly taking responsibility for the Industrialization of the PLM products, in particular, ENOVIA vpm and CATIA V4/V5.

After three years at Dassault Systèmes, Patrick took on the challenging two year assignment as executive technical assistant to Bernard Charlès, CEO and President.

In 2002, Patrick was appointed R&D Director for CATIA and SmarTeam PLM Solutions, defining and bringing to market Dassault Systèmes PLM Solutions for Small and Medium size companies.

In his current position he leads the Industry Solutions & Marketing organization for DELMIA, Dassault Systèmes' brand for Digital Manufacturing, defining solutions for the different industries including automotive, aerospace & shipbuilding industries.
